

BLACK CAT BONE_(CH)

Press Kit April 2016

Image (tiff 51MB, 44x29cm, 300dpi)

Long Text (844 characters, blanks incl.)

Black Cat Bone is rock music distilled from the feverish swamp-blues of the 1920ies, the drug induced sound of the 60ies, the screaming rebel-rock of the 70ies and the musing grunge of the late 20th century. The songs on Black Cat Bone's new album (April 2016) build on the bedrock of music's history, pay their dues to legends like John Lee Hooker, Kyuss, The Black Keys and are bound for pristine musical shores. Black Cat Bone joined to create a whole new beast of music. Menic, Emre and Matt fuse the musical essence of various decades with their roots from the USA, Turkey, Belarus and Switzerland, three professional musicians who's profound background in Jazz, Roots and Rock show on stage and in studio, and shine in their recordings and real live performance.

Menic: vocals, guitar

Matt: drums, backing vocals

Emre: bass, backing vocals

Short Text (316 characters, blanks incl.)

Black Cat Bone is rock music distilled from the feverish swamp-blues of the 1920ies, the drug induced sound of the 60ies, the screaming rebel-rock of the 70ies and the musing grunge of the late 20th century, three professional musicians fusing their roots from the USA, Turkey, Belarus and Switzerland
